60 NEGRU, ROȘU

DESCRIERE

Classic safety sandals with a steel antipuncture midsole and a steel toe cap, which protects against compression with a force of up to 15 kN or the fall of a load weighing up to 20 kg from a height of 1 m. The antistatic sole made of two-density polyurethane guarantees not only comfort but also safety thanks to the anti-slip properties of the sole, which is also resistant to oils and abrasion. The upper of the shoe is made of natural split leather and the inner lining of breathable polyester. Velcro closure ensures quick and comfortable donning. Thanks to the excellent price / quality ratio, this model is very popular among customers for whom price is one of the main criteria when purchasing safety shoes. The classic design will fit perfectly with most Fridrich & Fridrich workwear collections.
